Bath

10 March 2015

The loft area of our house in Evran was an unused space, with major repairs needed to the ceiling and walls. We had a vision of making a bedroom and en suite bathroom in the loft, but did not have a clear picture of how to achieve this.

Stephen arrived on time, and took the matter in hand, and to our pleasant surprise was able to formulate our vague ideas into a building plan.

The work was started earlier than expected, and finished on time. We were kept informed of the progress of the work by e mails and photographs. The photographs showing the work as it happened, and progress was swift, and the site shown to be clean and tidy.

The completed work was finished to a high standard. We would not hesitate to recommend Stephen's work for your building project.

Colin and Petunia Puxley.
