

S.P. FISHLOCK

We have been more than delighted with the recent work carried out by Stephen Fishlock. We needed a small job undertaken quickly and without costing the earth! Stephen gave us an estimate after undertaking an examination of the area to be repaired and was able to commence work the following week. He worked solidly for 5 days with only a short break for lunch.

The work was thorough and Stephen made us aware of exactly what he would be doing and why. He remained unobtrusive throughout his stay and always made sure his workplace was tidy and clean before he left each evening.

I cannot recommend him highly enough! Reliable, thorough, honest and friendly; he also happens to be a thoroughly nice guy! If we need any building repair work done in the future, I will contact Stephen immediately.
